BEFORE YOU SHOP

THE BASKET RULES

You don't need "diet food". You need a basket that makes the right choice the easy one.

01 PROTEIN IN EVERY MEAL

Aim for 30–40 g a meal. It keeps you full and protects muscle while you cut.

02 HALF THE TROLLEY IS PROTEIN AND VEG

Frozen veg and frozen berries are cheap, last for weeks and count just the same.

03 BUY VOLUME

Potatoes, rice, berries, salad and popcorn give big portions for fewer calories.

04 IF IT'S IN THE HOUSE, YOU'LL EAT IT

Don't buy the family-size crisps "for guests". Buy a single treat and enjoy it.

05 READ TWO NUMBERS ON LABELS

Calories and protein per serving. Ignore "low fat", "natural" and "guilt-free" on the front.

06 BATCH IT

Cook 2–3 proteins on Sunday. Future you will thank you on Wednesday night.

NOTE ON NUMBERS

All calories and protein in this guide are typical values per serving and vary by brand. Always check the label.

PROTEIN STAPLES

FOOD	SERVING	KCAL	PROTEIN
Chicken breast (raw)	150 g	160	36 g
Turkey mince 2% (raw)	125 g	135	29 g

EATING OUT

THE TAKEAWAY SURVIVAL GUIDE

You can eat out on a cut. Order the protein, watch the sides and sauces.

PLACE	ORDER THIS	GO EASY ON
Peri-peri chicken	Chicken breast or ¼ chicken, corn on the cob or side salad	Chips, garlic bread, creamy sauces
Indian	Tandoori or tikka chicken (dry), plain rice, salad	Korma, naan, bhajis, pilau
Chinese	Chicken chop suey or chicken and veg, plain boiled rice	Egg fried rice, sweet and sour, crackers
Kebab shop	Chicken shish plate or wrap, salad, chilli sauce	Doner, garlic mayo, chips
Subway	6-inch chicken or turkey, double meat, all the veg	Cookies, creamy sauces, extra cheese
Pizza	Thin base, chicken or ham, 2–3 slices + salad	Stuffed crust, garlic dips, the whole box
Burger place	Single or grilled-chicken burger, side salad, zero drink	Doubles, large fries, milkshakes

The rule: on a takeaway day, keep breakfast and lunch high-protein and lighter, then enjoy it without guilt.
