12 MINUTES · 3 TIMES A WEEK

28-DAY HOME ABS CHALLENGE

The core routine behind my most-viewed video, built into a 4-week plan you can do on your living-room floor.

BY KYE PRESCOD · LEVEL 2 GYM INSTRUCTOR · @PRESKI_FITNESS

READ THIS FIRST

ABS ARE BUILT IN TRAINING. THEY'RE SHOWN IN THE KITCHEN.

Everyone has abs. Whether you can see them depends on how much fat is sitting on top.

TRAINING DOES

- ✓ Makes your abs thicker so they show sooner
- ✓ Builds a stronger, more stable core
- ✓ Improves posture and lifting

TRAINING DOESN'T

- ✓ Burn belly fat directly ("spot reduction" isn't a thing)
- ✓ Fix a diet that's in a surplus
- ✓ Work if you do 500 sit-ups once a month

ROUGH GUIDE

Most men start to see an outline somewhere around **10–15% body fat**, most women around **18–22%**. It varies a lot person to person, so use the mirror, not a number.

SO DO BOTH

Do this challenge for the muscle. Use the **Home Shred Blueprint** (or a 15–20% calorie deficit, 2 g protein per kg and 8–10k steps) to drop the fat on top.

KNOW YOUR CORE

TRAIN ALL FOUR JOBS

Your core doesn't just crunch. Hit every job and your midsection looks and works better.

01 · FLEXION · RECTUS ABDOMINIS (THE "SIX-PACK")

BRING RIBS TO HIPS

Weighted crunch, reverse crunch, knee raises.

02 · ANTI-EXTENSION · DEEP CORE

STOP YOUR LOWER BACK ARCHING

Hollow hold, dead bug, plank.

03 · ANTI-LATERAL FLEXION · OBLIQUES

STOP YOURSELF TIPPING SIDEWAYS

Side plank, suitcase hold, suitcase carry.

04 · BRACING · TRANSVERSE ABDOMINIS

YOUR BUILT-IN WEIGHTLIFTING BELT

Breathe out hard and tighten on every rep of every exercise in this plan.

THE MOVES

DO THEM PROPERLY

THE ONE FROM MY VIRAL VIDEO

WEIGHTED CRUNCH

Lie down, knees bent, hold a dumbbell (or a backpack) on your chest. Breathe out hard and curl your ribs towards your hips. Squeeze for 2 seconds at the top. Lower slowly. Don't pull on your neck and don't sit all the way up: it's a crunch, not a sit-up.

KNEE RAISE (CAPTAIN'S CHAIR OR LYING)

Curl your pelvis up towards your chest, don't just lift your knees. No swinging. Lying version: hands under your bum, lift knees until your hips leave the floor.

HOLLOW HOLD

Lower back pressed into the floor, arms and legs off the floor. If your back lifts, bend your knees and bring your arms in. A short hold with your back flat beats a long one with it arched.

REVERSE CRUNCH

Knees bent at 90°, roll your hips up off the floor using your abs, then lower slowly over 3 seconds.

DEAD BUG

On your back, arms up, knees at 90°. Lower the opposite arm and leg slowly while keeping your lower back glued to the floor. Breathe out as you lower.

SIDE PLANK

Elbow under shoulder, hips high, body in a straight line. Too hard? Bend your knees. Too easy? Lift the top leg.

PLANK

Squeeze your glutes, tuck your ribs down, push the floor away. Stop when your hips sag.

SUITCASE HOLD / CARRY

One dumbbell (or a heavy bag) in one hand. Stand tall, don't lean. Hold it still, or walk slowly up and down the hallway. Your opposite oblique does the work.

ADVANCED · MY OWN VARIATION

SINGLE-LEG SUITCASE HOLD

Same as above but stand on the leg on the same side as the weight. Your obliques have to fire hard to stop you tipping over. Start with 15 seconds a side.

THE PLAN

TWO WORKOUTS. THREE DAYS A WEEK.

Mon **A** · Wed **B** · Fri **A**. Do the exercises as a circuit, rest 60 s between rounds.

WORKOUT A

Weighted crunch	12–15
Knee raise	10–12
Hollow hold	20–30 s
Side plank	20–30 s /side

WORKOUT B

Dead bug	8 /side
Reverse crunch	10–12
Suitcase hold	30 s /side
Plank	30–45 s

WEEK	ROUNDS	HOW TO MAKE IT HARDER
1	2	Bottom of each rep range. Learn the form.
2	3	Same reps, one more round.
3	3	Top of each rep range + 3 s lowering on every rep.
4	4	Heavier weight on crunches, straighter legs on raises, +10 s on holds.

Already have the 4-day home plan? Do Workout A or B straight after your sessions instead of on separate days.

28-DAY TRACKER

TICK IT OFF

Red days are core days. Every day: hit your protein, 8–10k steps and 2–3 L of water. Put a tick in the box when all three are done.

MON	TUE	WED	THU	FRI	SAT	SUN
1 CORE A	2 DAILY 3	3 CORE B	4 DAILY 3	5 CORE A	6 DAILY 3	7 PHOTO
8 CORE A	9 DAILY 3	10 CORE B	11 DAILY 3	12 CORE A	13 DAILY 3	14 PHOTO
15 CORE A	16 DAILY 3	17 CORE B	18 DAILY 3	19 CORE A	20 DAILY 3	21 PHOTO
22 CORE A	23 DAILY 3	24 CORE B	25 DAILY 3	26 CORE A	27 DAILY 3	28 PHOTO

DAY 28

Take your photo in the same spot and light as day 1. Then tag me **@preski_fitness**. I want to see it.

WHAT NEXT

WANT THE FAT ON TOP GONE FOR GOOD?

The challenge builds the abs. Coaching gets them showing: calories and protein set for you, a full home training plan and weekly check-ins with me until you get there.

- Home training plan for your kit and schedule
- Calorie and protein targets that fit your life
- Weekly check-ins, form reviews and plan changes
